- **CAB** is conformity assessment body and is a body that performs a conformity assessment service and that can be the object of accreditation;
- **CPR 2011** means the Construction Products Regulation [Regulation (EU) No 305/2011, as amended];  
**CPR 2024** means the Construction Products Regulation [Regulation (EU) No 2024/3110]

## 3. Background & Scope

- 3.1 INAB is the national body with responsibility for the accreditation of laboratories, certification bodies and inspection bodies and provides accreditation in accordance with the relevant International Organisation of Standardisation.
- 3.2 From time to time, INAB is requested or seeks to have an agreement with a National Authority which *relies* on accreditation as the preferred means to demonstrate competence of CABs providing accredited services under Regulation (European or National). INAB is not undertaking assessment on behalf of the National Authorities nor assuming any regulatory role.
- 3.3 The purpose of this agreement is to set out the basis upon which INAB and the National Authority shall exchange certain information relating to applicant /accredited Organisations Notified Bodies/ Bodies under Regulation for the purposes of assisting the Parties in discharging their respective statutory and or regulatory functions. The

information to be exchanged, without variation, is documented below in Sections 4 and 5.

- 3.4 INAB accreditation is not a substitute for nor does it extend to any enforcement action, under the auspices of the National Authority.
- 3.5 It is agreed that both bodies have separate decision making processes in terms of accreditation and appointment/approval respectively.
- 3.6 INAB shall complete the information in Appendix I.
- 3.7 The National Authority shall complete the information in Appendix II.
- 3.8 INAB shall publish a list of Authorities with which it has a signed agreement. This template agreement will also be published along with the information on mandatory requirements provided in Appendix II.
- 3.9 Mandatory requirements which are determined by the National Authority for the application and/or interpretation of the accreditation scheme and which are publicly available (see 3.8) may be assessed by INAB as part of their accreditation process. This shall be confirmed in Appendix II. Inspection/verification/regulatory/enforcement activities expected to be performed by the National Authority itself are not part of these requirements. Additional requirements over and above the accreditation requirements may necessitate additional time on site and the Authority is advised that this may incur an annual cost.
- 3.10 An agreed format for scopes of accreditation with the National Authority shall be put in place.
- 3.11 It is advisable to schedule regular meetings between INAB and the National Authority and the frequency can be agreed.
- 3.12 The National Authority acknowledges that any decisions in respect of the accreditation application or to a change in status to accreditation (including but not limited to suspension of revocation of accreditation, partial or otherwise,) are made at the discretion of INAB in accordance with the discharge of its statutory functions.
- 3.13 Information shall be exchanged only between the parties identified in Section 4 and 5 below.
- 3.14 This agreement does not preclude or supersede any other agreements or reporting arrangements between the National Authorities and CABS.

#### **4. Information Obligations - INAB**

- 4.1 INAB shall advise the National Authority of any changes to the accreditation status of the applicant/accredited CAB. The detail can be requested directly from the CAB;
- 4.2 INAB does not provide any assessment reports, and these may be requested directly from the CAB.
- 4.3 Where applications are made to INAB, which are under this agreement, INAB will advise the applicant to contact the National Authority promptly, specifically in relation to them becoming a Notified Body. INAB will not provide personal information on applicant CABs.
- 4.4 INAB shall advise the National Authority of any changes to accreditation standards or mandatory accreditation requirements.
- 4.5 INAB has included in its terms and conditions with CABs that *“where a regulatory / national / competent authority requests information from the Organisation on major*

*nonconformities raised in INAB assessments or complaints / negative feedback received on accredited activity, INAB expects this to be provided in a timely manner.”* INAB strongly encourages the National Authority to request this information from CABs on a routine basis.

## **5. Information Obligations – National Authority**

- 5.1 The National Authority shall advise INAB if Regulations (European or national) have changed, or mandatory requirements have been added / amended.
- 5.2 The National Authority shall communicate any issues or problems encountered as part of national surveillance/enforcement/monitoring to the CAB directly, informing INAB of such issues. INAB will investigate the closure of such issues / problems with the CAB at the next available on site visit, unless agreed otherwise. The National Authority shall satisfy itself that such issues have been resolved to their satisfaction.
- 5.3 In circumstances where the National Authority is exercising its right to revoke approval of the CAB, it shall immediately inform INAB of its intention.

## **6. Information Agreement between INAB and the National Authority**

- 6.1 Each party (the “**PROVIDING PARTY**”) is responsible for ensuring that the provision of information by it to the other party (the “**RECEIVING PARTY**”) in the context of this Agreement, and its use by the Receiving Party in compliance with the restrictions set out in this Agreement, shall not breach any obligations owed to third parties including, without limitation, any confidentiality obligations or obligations under the Data Protection Acts.
- 6.2 This Agreement does not require the provision of any personal data.

## **7. Review**

This agreement shall be reviewed annually with each Authority by the INAB Programme Manager and updated as needed.

## 8. Signatures

## SCOPE

The scope will follow the template in the CRM. However additional text may be added as notes, by agreement. Once agreed, this text will apply to scopes for all CABs accredited within the Regulation/Scheme.

Additional scope text:

As per INAB templates

## APPENDIX II: FOR OFFICE USE – INFORMATION PROVIDED BY THE NATIONAL AUTHORITY

The National Authority is requested to set out a brief description of its function and how accreditation is to support this function.

### **Construction Products Regulation (EU) 305/2011 (CPR2011)**

Article 40 of the Construction Products Regulation (EU) 305/2011 (CPR2011) requires each Member State to designate a notifying authority that shall be responsible for setting up and carrying out the necessary procedures for the assessment and notification of the bodies to be authorised to carry out third-party tasks in the process of assessment and verification of constancy of performance (AVCP) for the purposes of the CPR2011, and for the monitoring of notified bodies, including their compliance with the provisions of Article 43.

The Department of Housing, Local Government and Heritage is the designated notifying authority under the CPR2011.

An application for notified body status should be made in accordance with the [Irish notification procedures for the purposes of the Construction Products Regulation \(305/2011\)](#).

The [Irish National Accreditation Board](#) (INAB) undertakes accreditation and monitoring of notified bodies. Bodies seeking to be notified for the purpose of the CPR should apply to the INAB for the accreditation relevant to the services they wish to provide.

At present the details of the Irish Notification Procedures for the Purpose of the Construction Products Regulation (EU) No 305/2011 can be found at: <https://www.gov.ie/en/department-of-housing-local-government-and-heritage/publications/irish-notification-procedures-for-the-purpose-of-the-construction-products-regulation-3052011/>

### **Construction Products Regulation (EU) 2024/3110 (CPR 2024)**

In 2024, Construction Products Regulation (EU) 2024/3110 (CPR 2024) was published. It entered into force on January 7, 2025, and becomes applicable from January 8, 2026. It repeals the CPR 2011 from January 8, 2026, with the exception of certain articles which will continue to apply until January 8, 2040.

As such, from January 8, 2026, the Department of Housing, Local Government and Heritage is the designated notifying authority under the CPR 2024. Article 43 of the CPR2024 requires each Member State to designate a notifying authority that shall be responsible for setting up and carrying out the necessary procedures for the assessment and notification of the bodies to be authorised to carry out third-party tasks in the process of assessment and verification systems (AVS) for the purposes of the CPR 2024, and for the monitoring of notified bodies, including their compliance with the provisions of Article 46.

### **Transitional arrangements from CPR2011 to CPR2024**

In relation to transitional arrangements, Article 95(2) of CPR 2024 sets out that notified bodies that are designated or notified under CPR 2011 shall be deemed to have been designated or notified under CPR 2024 as well. However, they shall be assessed and designated anew (in accordance with the CPR 2024)

by the designating Member States in accordance with their periodic re-assessment cycle (post January 8, 2026) and at the latest by 8 January 2030.

The Department of Housing, Local Government and Heritage continues to rely on assessments of applicant organisations carried out by INAB for the purposes of accreditation to ensure that the applicant complies with the requirements of the relevant CPR and has the necessary product knowledge and capability to carry out the relevant activities. All applicants will need to demonstrate their professional ability and a necessary understanding of both the relevant CPR and the relevant harmonized standard or harmonised technical specification for construction products.

For the purposes of notification as a notified body under the CPR 2011 and CPR 2024, applicants require accreditation to ISO 17025 for AVCP System 3, and ISO 17065 for AVCP System 1+, 1, and 2+ and ISO 17029 for System 3+.

The Irish notification procedures for the purpose of the CPR 2024 are currently being finalised and will be published and forwarded to INAB shortly.

The National Authority is requested to specify all mandatory requirements applicable and provide a link to their website. This link will be added to the INAB website (see 3.8, 3.9 above). Confirmation that the Authority requires the mandatory documents assessed as part of the accreditation process.

An applicant and existing Irish based notified body must comply with Article 46 of CPR 2024 and Article 43 of CPR 2011 as applicable, see transitional arrangements above.

They shall be legally established in Ireland and must be an organisationally independent body with independent decision-making. They should demonstrate the following:

- Own decision making on certification. The notified body must directly employ its own technically competent staff, have control over, and be able to access any audits/tests made by subcontractors;
- distinct and separate management system and internal procedures;
- effective control of all subcontractors, including any associated companies that are used as subcontractors;
- own liability insurance;
- own financial management and financial independence;
- own information and communication system;
- Confidentiality and professional secrecy with regard to all information gained in the carrying out of its tasks. This extends to any companies associated with the notified body.

Details of the Irish Notification Procedures for the Purpose of the Construction Products Regulation (305/2011) can be found at: <https://www.gov.ie/en/department-of-housing-local-government-and-heritage/publications/irish-notification-procedures-for-the-purpose-of-the-construction-products-regulation-3052011/h>

The Irish notification procedures for the purpose of the CPR 2024 are currently being finalised and will be published and forwarded to INAB shortly.

The National Authority is requested to specify if the accredited CAB is to be noted on an approval list/EU NANDO database for notified bodies.

Yes, NANDO-CPR
